About Me

I have been taking photos since I was seventeen. Professionally, I have been doing it for twelve years and have worked with local and international clients.

I started specializing in architecture photography eight years ago.

My Work

The Rynne Tower, 2021

This project was commissioned by the property management firm for their brochures.

Lennos Cultural Center, 2021

The photos I took for this project were used for print and digital media.

Graziell Hall of De
Loreigh
University, 2020

The university
requested photos
of the newly-
restored building
for their yearbook.

Missa Narra Museum, 2020

The museum reopened to the
public after a small fire and
posted this photo on their
website.

"I release most of my photographs in black and white to showcase the play of light and shadow."

South side of The
Rynne Tower, 2021
